Massachusetts elects Long over Butler by 20,000. Illinois makes one more for the Solid North, Maryland. Virginia and Mississsippi go Democratic of course.

## A RATTLING VICTORY.

The returns from Tuesday's election show the Republican tidal wave sweeping on. In New York there is nothing left of the bar'l but the bung-hole. Cornell is Governor and the Legislature ar overwhelmingly Republican. In Massachusetts Long defeats Butler by 15,000, and the Legislature is overwhelmingly Republican. Nebraska gives her usual 12,000 majority. Wisconsin elects Smith for Governor and a Regublican Legislature, and shows gains of 20,000. Pennsylvania shows gains of over 30,000, and completely annihilstes the Democracy. . Illinois shows gains of 20,000. Connecticut shows a gain of 22 members in the Legislature, which insures a Republican United States Senator as Eaton's successor. Even New Jersey showes Republican gains, and gives the Republicans control of the Legislature. In Minnesota the vote stands about 5 to 1. Maryland, Mississippi and West' Virginia have gone Democratic, of course. 1880 O. K.

### SECRETARY SHERMAN ON MR. TILDEN.

few days ago by Mr. George Alfred port on the 6th instant, as interviewed a Townsend, of the Cincinnati Enquirer. The following is an extract:

"What do you think, Mr. Secretary, of Mr. Tilden's judgment in renewing his claims on the present term of the

Presidency?"
"I don't think Tilden's judgment is good generally. He is not out with the people enough to know how to get their opinion. I have heard him talk often and his reminiscences are sometimes interesting. He goes a good way back into New York politics, but there could not have been worse judgment than he showed after he lost the Presidency. Indeed, I wonder that the Democrats can run him at all as a Presidential candidate. With the light of a great cam-

paign turned on his infirmities he soon begins to dwindle."

### MR. BONNER'S SALE.

The trotters and trotting stock from the farm of Mr. Bonner will be sold at auction to-day at the Manhattan Athletic Club Grounds, on Eighth avenue, between Fifty-sixth and Fifty-seventh streets, commencing at 10 A. M. This will be the largest, sale of valuable trotting blood that has ever been put up in this or any other country, there being eighty-seven head of choice animals ing eighty-seven near of choice animals for the public to select from, and all tastes can be satisfied, as there is speed and beauty combined, with the purest pedigrees attached. The stock is of an unusually fine description, and has been attracting wide attention ever since the catalogue of the sale was published. The get of Startle, from sucklings up to four-year-olds, are an exceedingly fine lot, especially in muscular development and are of fine size. They compare in appearance and action so favorably with the get of the more tried sire, Edward Everett, as to suggest a probability that they will sell nearly or quite as well as those of the famous sire of Judge Fullerton, Mountain Boy, Joe Elliott and others. Keene Jim is a center of at traction. His prospective turf value gives him the prestige of the star of the sale; but many good horsemen think equally well of Prince Imperial, the son of Flora Temple, and of Billy Button, by Edward Everett, both of which have shown low in the twenties, and neither having a record to bar them. One of the features that renders the catalogue sttractive is the fact of tried speed, stated as actually taken to the fraction of a second, and not estimated by an over-sanguine owner. The sale will commence promptly at 10 o'clock, in order to sell all in one day. Mr. Kellogg has arranged and advertises an order of sale to facilitate rapid progress, and has provided means of showing the unbroken stock loose to display their natural action.—[N. Y. The Government engineers say that an expenditure of \$50,000 on the Coquille river will insure a depth of 12 feet at low water.

The Jacksonville Times says: Coniderable wheat has already been sown in the valley, wherever the ground admitted of so doing, and the farmers seemed determined to do their part to insure a bountiful harvest next' season.

Two parties are reported to have visited Curry county lately, says the Coos Bay Mail, for the purpose of testing new inventions for saving gold in the black sand mines of that region.

The roads toward Goes Lake and Tale Valley are said, by the Jackson-ville Times, to be lined with emigrants in all kinds of vehicles, going to Lake county, in the vicinity of Lakeview and the valleys northward.

Six English families have formed a colony sixteen miles above Myrtle Creek, says the Roseburg Independent, and each family has secured a homestead embracing 160 acres. Among the colonists there are a doctor and preacher. Proposing to live in peace they brought no lawyer, with them.

## A FEW PERTINENT REMARKS.

The double-headed woman is exhibit ng at Platt's Hall, San Francisco. Jim Fair and John Mackay went below last night .- [Virginia Footlight.

If James G. Fair and John W. Mackay were to stay below how long would such "little industries" as the Footlight exist? Indeed we may truly ask how long would Virginia City last? It has become the fashion of a small, envious olique here as well as in Virginia, to throw stones at the most promincut figures in mining circles. This slunging of stones is not a brave method of showing slingers. The people of San Fiancisco and Virginia owe the bonanza people a debt of gratitude which will finally be recognized. The last men in the world that Virginia should as ault are Messrs. Mackay and Fair. These two representative mining men of the world are of the people. They wrested their fortunes from old mother carth and have used millions to, furnish employment for less successful men. They could have out and run and taken their millions with them. They could have abandoned Virginia, perhaps to a deplorable fate. But they took a different course. They ro-mained at their posts and clung to the interest which skill, energy and experience abundantly qualified them to hundle. The abuse of successful men may be popular. But it certainly is not manly or right.—[Stock Report.

THE CHINESE MUST GO.

[From the San Francisco Post] The State vote on Chinese immigraion (154,638 against 883) should forver settle the question as to the wish of this Commonwealth upon that point. Eastern journalists and correspondents will hardly venture to say that this vote was east under compulsion. It was perfectly free and unbiassed, and as such it carries enormous weight. In all this great State only 883 persons could be found to declare by their ballots that they are in favor of Chinese immigration, and of these several hundreds probably cast their votes for it as a practical joke. This is very well known to most citizens of San Fran-Let us have an end, therefore. of the charge that only hoodlums and sandlotters are opposed to the Chinese, The vote cast last September, declares emphatically that "the Chinese must

DOUGLAS VS. LYON.

The Carson Valley (Genoa) News

Douglas county. It presents the following as its reasons:

We believe with the Tribune, that the citizens of Douglas county should use every effort in their power to secure the location of the extention of the Virginia & Truckee Bailroad through our county. We are not sufficiently familiar with the cost of building and operating railroads to venture an opinion as to the merits of this or that particular route, but we are sufficiently well acquainted with the the Lyon County Times, that "it will cost two millions more to build a railroad to Bodie through Douglas county than through Lyon County," and that "it would cost \$200,000 more per year to operate such a railroad through Douglas than through Lyon caunty," to be unwarranted, and that a personal inspection of the two routes will demon-strate that a line of railroad from Carson to Bodie, following mainly the route of the Nevada and California telegraph line, could be constructed between the two points as cheaply as through Lyon county, and that the annual cost of maintaining the same would not exceed that of the other route. This route presents no insurmountable obstacles tends through the fartile valleys of the Carson, East and West Walker rivers, which would contribute as much towards 31 20 paying the running expenses of the 25 00 road as would the lower Carson and Mason valleys. Situated for its entire length along the base of Sierras, the wood and lumber interests developed thereby would give more freight alone than all other interests along the Lyon county route. The lumber interests in the vicinity of Bridgeport and in close proximity to such a route would contri-bute to-day much more in the way of freights than all the combined interests of the other route, to say nothing of the inexhaustible supply of timber situated higher up in the mountains, that could be made available by means of the East and West Walker rivers, both of which streams would be crossed by this route. These considerations with the assurance J B Williams, assessment roll 300 00 against unfriendly action by our county.
